

10th September 2024

Dear Parents/Guardians,

We are excited to announce the introduction of a new house system at Bushbury Lane! To make this even more special, we are asking for the help of our talented children in designing logos for each of our four new houses, which are named after famous rivers from around the world: **Nile, Thames, Amazon, and Missouri.**

Design Challenge:

We are inviting all children to create **four unique logos** – one for each house. The logos should represent the spirit and character of each river and reflect creativity and school pride.

Here are some things to think about when designing:

- **Nile:** The longest river in the world, known for its historical significance and its journey through Egypt.
- **Thames:** A famous river in the United Kingdom, flowing through London, rich in history and culture.
- **Amazon:** One of the largest rivers in the world, known for its diverse wildlife and flowing through the lush Amazon rainforest.
- **Missouri:** A major river in the United States, flowing through the heartland of America, symbolizing strength and endurance.

Please see attached some images of the rivers to help you get started.

Submission Guidelines:

- Designs can be drawn or created digitally.
- Students should submit their four logo designs to their class teacher by **Monday 16th September**
- Make sure each logo clearly represents its river house.

We encourage children to take part in this exciting project. The winning designs will be used to represent the houses throughout the school and will become an important part of our school's identity.

We look forward to seeing the creativity of our children shine!

Yours faithfully

Miss L Walters
Deputy Head Teacher
